

JSON Type Mapping

JSON types and Bridge types are mapped as follows:

JSON Type	Example	Bridge Type	Runtime Version
string		String	
int		Integer	
number		Float	
true/false		Boolean	
string (base64 encoded)		Blob	
string (XML Scheme dateTime)	2020-10-10T12:00:00Z	DateTime	
string (ASP.NET DateTime)	/Date(1584960102-0700)/	DateTime	2020.4
array		Array	

For more information on base types see [Base Types](#) .
