

Mobile on Android Devices

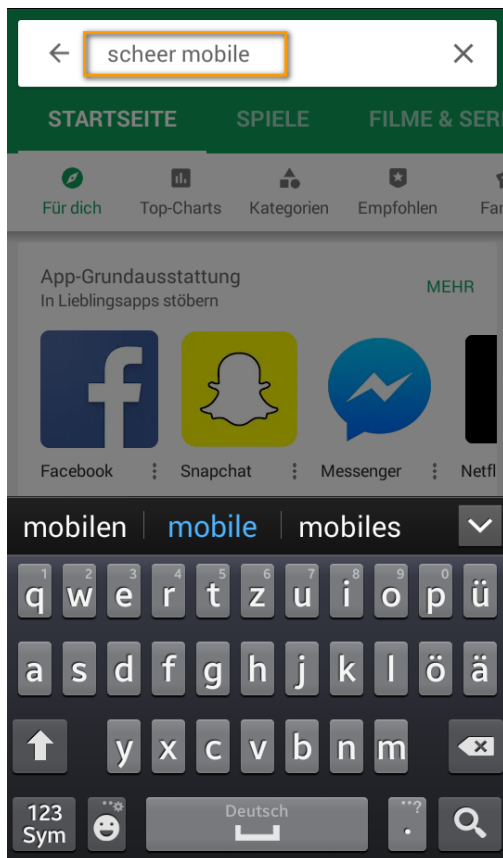

In order to use **Scheer PAS Mobile** entirely, you need a valid account for **Scheer PAS BPaaS** and a mobile device with the installed mobile app.

Customers using **Scheer PAS BPaaS** on premise will receive a separate help page for the installation of the mobile app from their system administrator.

Installation from Google Play Store

With a few simple steps you can download the **Scheer PAS Mobile** app from the Google Play Store to your device.

Open the Google Play Store on your device and search for **Scheer Mobile**.

On this Page:

- [Installation from Google Play Store](#)
- [Log in to the Scheer PAS Mobile App](#)

The **Scheer PAS Mobile** app will be displayed in the hit list. Tap the link to switch to the installation screen.

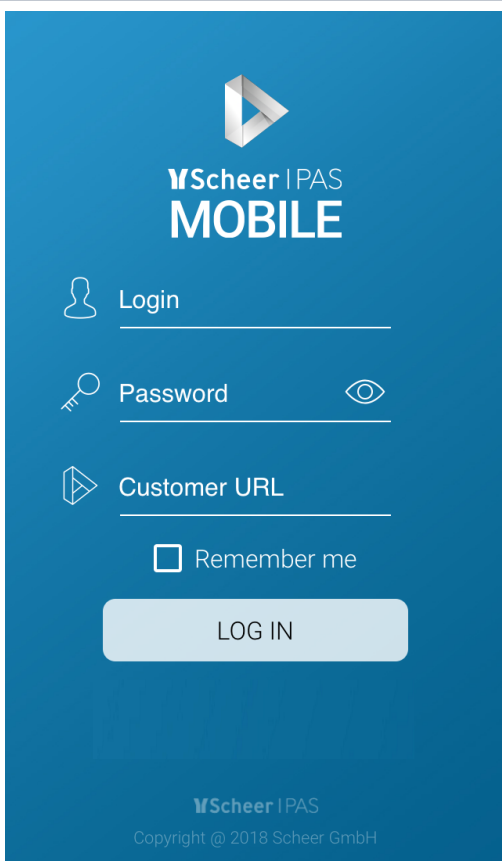

Start the installation by clicking the **Install** button. For more information about the app, use the **Read More** link.

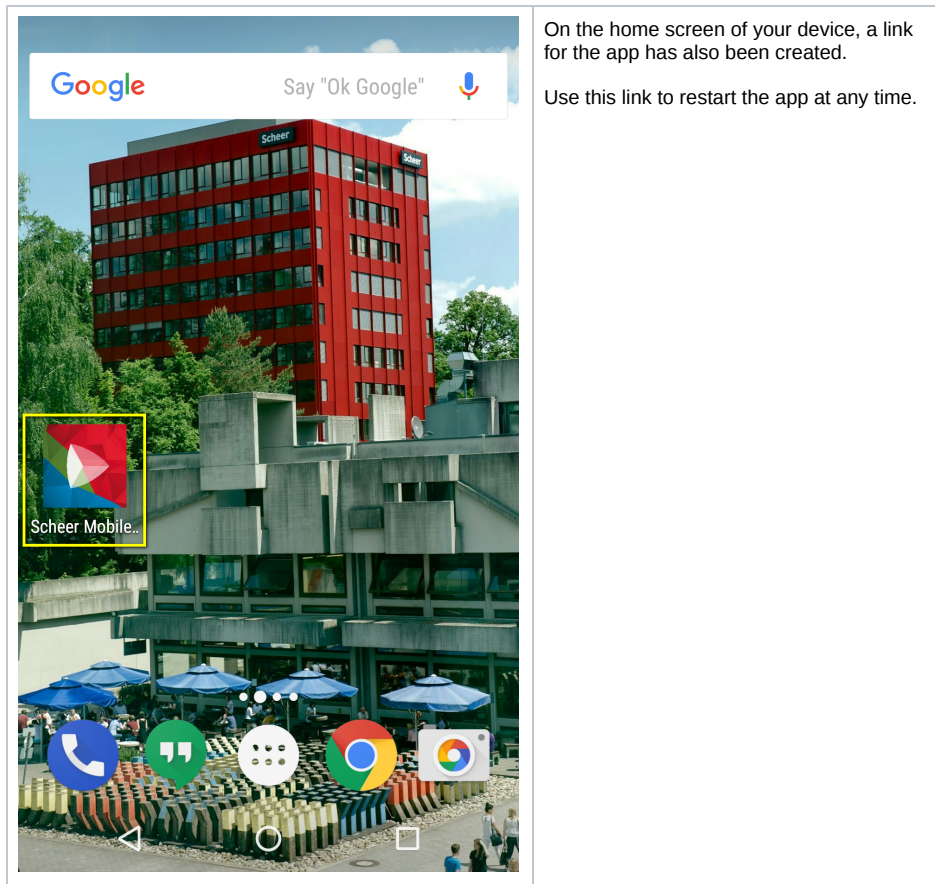

A description of the app as well as further information and views of the different app content pages will be displayed.

As soon as the installation is finished, you can switch directly to the app by clicking the **Open** button.

Use your **Scheer PAS BPaaS** login credentials on the app's login page.

On the home screen of your device, a link for the app has also been created.

Use this link to restart the app at any time.

Log in to the **Scheer PAS** Mobile App

When opening the app for the first time, you have to log in with your **Scheer PAS BPaaS** user data.

Login for Cloud Customers

YScheer IPAS

You will find three input fields on the app's login screen:

- Login
- Password
- Customer URL

Login and password correspond to your **Scheer PAS BPaaS** credentials.

The **Customer URL** will be communicated by Scheer GmbH.

 It is possible that a customer uses several customer systems, for example if separate test and production systems are used. In this case, the entry in the **Customer URL** field determines which system the mobile app accesses.

Installation and Login for On Premise Customers

 The screenshot shows the login screen of the YScheer IPAS MOBILE app. It features a blue background with the app's logo at the top. Below the logo are three input fields: 'Login' with a person icon, 'Password' with a key icon and an eye icon for toggling visibility, and 'Customer URL' with a play icon. A 'Remember me' checkbox is located below the 'Customer URL' field. A 'LOG IN' button is positioned at the bottom of the input fields. At the very bottom, the text 'YScheer IPAS' and 'Copyright @ 2018 Scheer GmbH' is visible.	You will find three input fields on the app's login screen: • Login • Password • Customer URL If your company uses Scheer PAS BPaaS on premise, your system administrator will provide a link to install the mobile app. This link will open a help page where you can download the app - just follow the instructions for download and installation. Client and server address are automatically entered and saved. All you need to do is log in with your Scheer PAS BPaaS credentials.
 This screenshot is identical to the one above, but the 'Remember me' checkbox is highlighted with an orange rectangular border to draw attention to it.	Active the checkbox Remember me if you want to save your credentials for the next sessions in the mobile app.  This option is only available if you have activated the display lock (e.g. PIN, pattern or fingerprint) for your mobile device. If this is not the case, the option is grayed out.
