

Mobile on Windows Devices

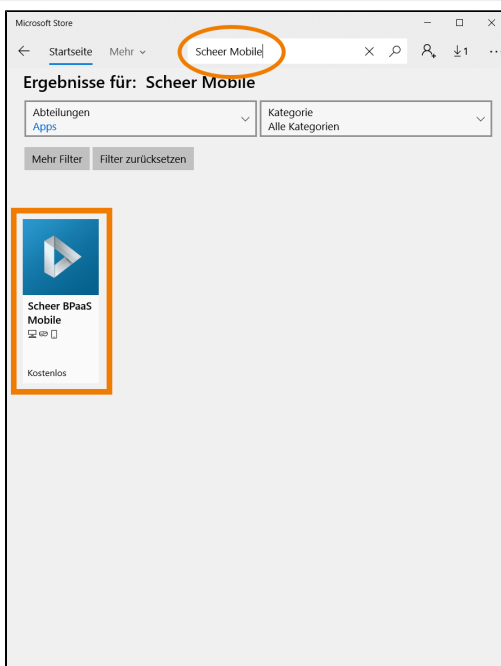

In order to use **Scheer PAS Mobile** entirely, you need a valid account for **Scheer PAS BPaaS** and a mobile device with the installed mobile app.

Customers using **Scheer PAS BPaaS** on premise will receive a separate help page for the installation of the mobile app from their system administrator.

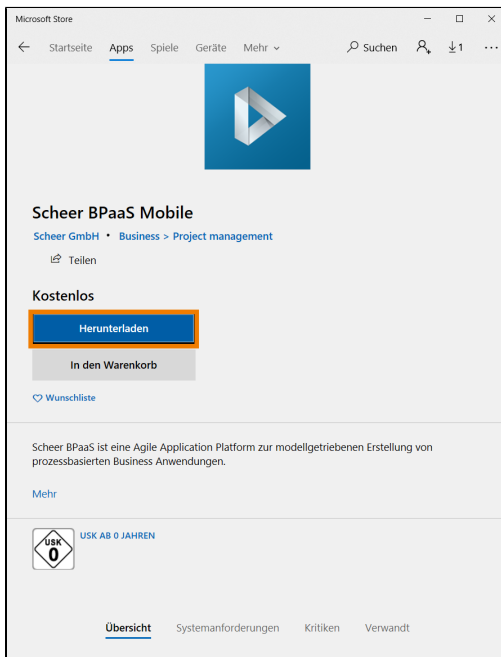

Installation from Microsoft Store

With a few simple steps you can download the **Scheer PAS Mobile** app from the Microsoft Store to your Windows device.

Open the Microsoft Store and search for **Scheer Mobile**.

Select **Scheer PAS Mobile** in the hitlist.

Tap the **Download** button to start the installation.

On this Page:

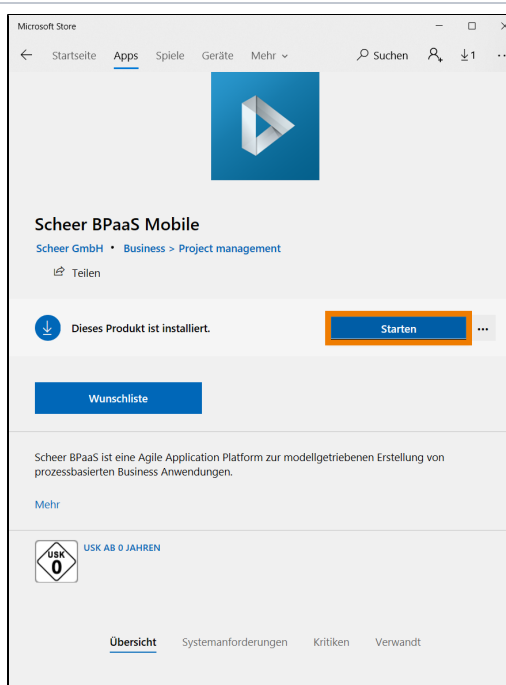

- [Installation from Microsoft Store](#)
- [Log in to the Scheer PAS Mobile App](#)
 - [Login for Cloud Customers](#)
 - [Installation and Login for On Premise Customers](#)
 - [Logging in to the App](#)

Related Pages:

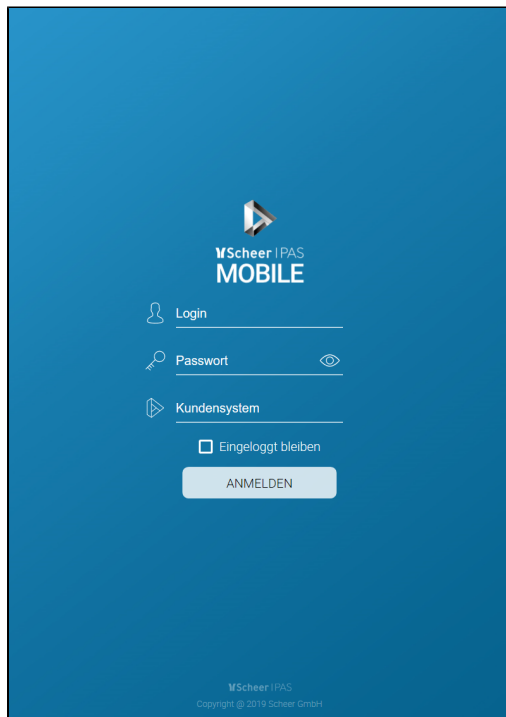

- [Mobile App Installation Guide](#):
 - [Mobile on Android Devices](#)
 - [Mobile on iOS Devices](#)

Related Documentation:

- [Mobile Dokumentation \(DE\)](#)
- [BPaaS Guide](#)

As soon as the installation is finished, you can directly switch to the app using the **Start** button.

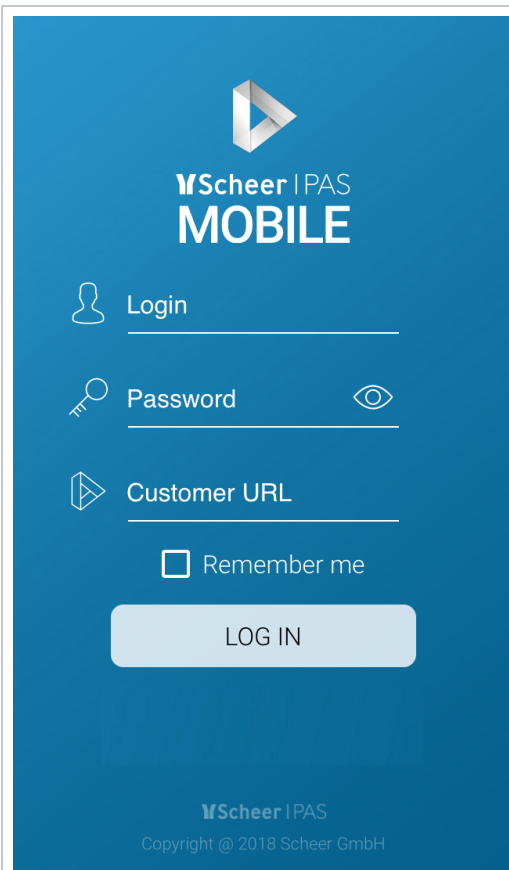

You have to use your **Scheer PAS BPaaS** credentials to log in to the app.

Log in to the **Scheer PAS** Mobile App

When opening the app for the first time, you have to log in with your **Scheer PAS BPaaS** user data.

Login for Cloud Customers

The image shows the login screen of the YScheer IPAS MOBILE app. It has a blue background. At the top is the YScheer IPAS MOBILE logo. Below it are three input fields: 'Login' with a person icon, 'Password' with a key icon and an eye icon for toggling visibility, and 'Customer URL' with a play icon. Below these fields is a 'Remember me' checkbox. At the bottom is a 'LOG IN' button. The footer contains the YScheer IPAS logo and the text 'Copyright @ 2018 Scheer GmbH'.

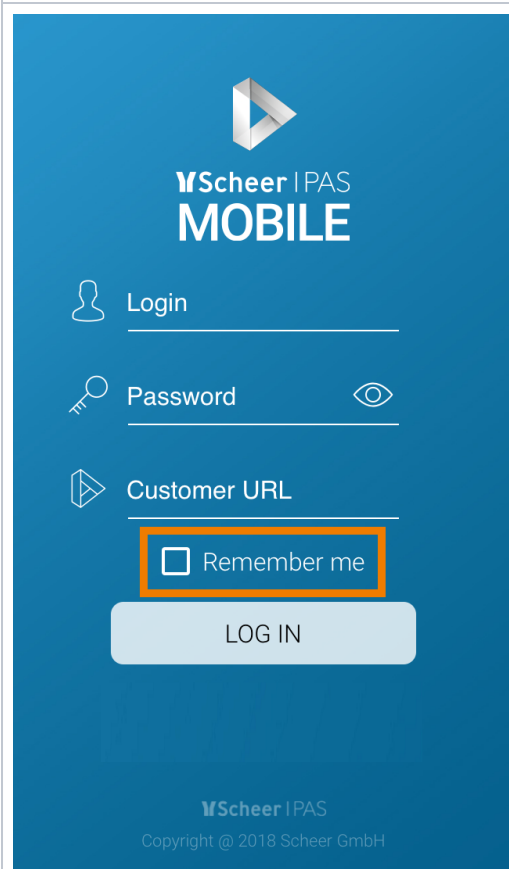

You will find three input fields on the app's login screen:

- **Login**
- **Password**
- **Customer URL**

Login and password correspond to your **Scheer PAS BPaaS** credentials.

The **Customer URL** will be communicated by Scheer GmbH.

i It is possible that a customer uses several customer systems, for example if separate test and production systems are used. In this case, the entry in the **Customer URL** field determines which system the mobile app accesses.

This image is identical to the one above, showing the login screen of the YScheer IPAS MOBILE app. The 'Remember me' checkbox is highlighted with an orange rectangle.

Active the checkbox **Remember me** if you want to save your credentials for the next sessions in the app.

i This option is only available if you have activated the display lock (e.g. PIN, pattern or fingerprint) for your mobile device. If this is not the case, the option is grayed out.

Installation and Login for On Premise Customers

 <p>The screenshot shows the login screen of the YScheer IPAS MOBILE app. It has a blue background with the app logo at the top. Below the logo are three input fields: 'Login' with a person icon, 'Password' with a key icon and an eye icon for toggling visibility, and 'Customer URL' with a play button icon. There is a 'Remember me' checkbox below the 'Customer URL' field. A 'LOG IN' button is at the bottom. The footer contains 'YScheer IPAS' and 'Copyright @ 2018 Scheer GmbH'.</p>	<p>You will find three input fields on the app's login screen:</p> <ul style="list-style-type: none"> • Login • Password • Customer URL <p>If your company uses Scheer PAS BPaaS on premise, your system administrator will provide a link to install the mobile app. This link will open a help page where you can download the app - just follow the instructions for download and installation.</p> <p>Client and server address are automatically entered and saved. All you need to do is log in with your Scheer PAS BPaaS credentials.</p>
 <p>This screenshot is identical to the one above, but the 'Remember me' checkbox is highlighted with an orange rectangle to indicate it should be activated.</p>	<p>Active the checkbox Remember me if you want to save your credentials for the next sessions in the mobile app.</p> <div data-bbox="678 1104 1066 1287" style="border: 1px solid #ccc; padding: 10px; margin-top: 10px;"> <p> This option is only available if you have activated the display lock (e.g. PIN, pattern or fingerprint) for your mobile device. If this is not the case, the option is grayed out.</p> </div>

Logging in to the App

The image shows a login screen for 'WScheer IPAS MOBILE'. At the top is a logo consisting of a stylized 'W' and 'S' inside a square. Below the logo, the text 'WScheer IPAS' is in a smaller font, and 'MOBILE' is in a larger, bold font. There are three input fields: 'Login' with a person icon, 'Password' with a key icon, and 'Customer URL' with a square icon. Each field has a yellow underline and a yellow error message: 'Login required', 'Password required', and 'Client required'. Below the 'Customer URL' field is a checkbox labeled 'Remember me'. At the bottom is a large, light blue button labeled 'LOG IN'. The footer contains the 'WScheer IPAS' logo and the text 'Copyright @ 2018 Scheer GmbH'.
