Configuration Options

Use the **Attributes** panel to edit the form element.

Attribute	Description	Allowed Values	
Name	Technical identifier for data processing and not visible for the end user.	Alphanumeric characters and underscore. <div> It is not allowed to start the name with a number.</div>	
Description	A commentary field for the developer. The content is invisible to users and its sole purpose is internal documentation.	Any string.	
Label	Field name shown in the form.	Any string.	
Mandatory	The element must be filled or used if the checkbox is activated.	true	Element must be filled.
		false	Element may remain empty (default).
Read-only	This field is write-protected. When you use the option, Read-only is added to the bottom right of the element: 	true	User cannot enter values.
		false	User can enter values (default).

Default Date	<p>By default the field is empty. Use the calendar  in the element or in the Attributes panel to preset a date:</p> <div><div>FormDatePicker</div><div><div>FEB 2021</div><div><</div><div>></div><div>Su</div><div>Mo</div><div>Tu</div><div>We</div><div>Th</div><div>Fr</div><div>Sa</div><div>FEB</div><div>1</div><div>2</div><div>3</div><div>4</div><div>5</div><div>6</div><div>7</div><div>8</div><div>9</div><div>10</div><div>11</div><div>12</div><div>13</div><div>14</div><div>15</div><div>16</div><div>17</div><div>18</div><div>19</div><div>20</div><div>21</div><div>22</div><div>23</div><div>24</div><div>25</div><div>26</div><div>27</div><div>28</div><div>13</div><div>:</div><div>52</div><div>:</div><div>56</div><div>✓</div></div><p>Save your default date by clicking on the check button. The set date and time are displayed in the element:</p><div><div>FormDatePicker</div><div>17.02.2021 13:56:37</div><div></div></div></div>	
Date Format	<p>Use this field to define the format, in which the date shall be displayed. You can choose between three date formats.</p>	<div><div>DD. MM. YY YY</div><div>Date is displayed in order day-month-year (default). Example: 31.12.2099</div></div> <div><div>MM. DD. YY YY</div><div>Date is displayed in order month-day-year. Example: 12.31.2099</div></div> <div><div>YY. YY. MM .DD</div><div>Date is displayed in order year-month-day. Example: 2099.12.31</div></div>
Use Current Date	<p>The current date and time is used.</p> <div><div></div><div>If Use Current Date is enabled, you cannot use the calendar (attribute Default Date) any more.</div></div>	<div><div>true</div><div>The current date is displayed.</div></div> <div><div>false</div><div>The entered date is displayed.</div></div>
Vertical Alignment	<p>The attribute is used to adjust the position of a form element in context to a bigger neighboring element.</p>	<div><div>Top</div><div>Align the element on top of the element cell (default).</div></div>

<p>Example: The Radio Button Group <code>Color</code> is much bigger than the Button <code>Next</code>, but the button should be shown at the bottom of the form. Therefore, the button's attribute Vertical Alignment is set to Bottom.</p> 		Center	Align the element in the middle of the element cell.
		Bottom	Align the element at the bottom of the element cell.
CSS Class	Enables a field-accurate layout customization.	A valid CSS class.	
Custom Attributes	<p>The attribute is used to activate Angular directives, that are created as development kit (devkit) library to expand the default functionality.</p> <div> For detailed information about Angular directives, visit the official Angular documentation. For details about the usage of the Custom Attributes, refer to Developing Custom Directives.</div>	<ul style="list-style-type: none">• empty attribute• attribute with value (e.g. <code>color="red"</code>)• multiple entries separated by space (e.g. <code>color="red" multiline max="5"</code>)	
Symbol Type	Displays the type of the form element in read-only mode.	—
