After a successful login to your **Scheer PAS** system, you will find yourself in the Portal.

The Portal is your access to the world of **Scheer PAS**. For each component of the platform you are authorized to use, you will see a corresponding tile.

The current version of the portal is displayed in the lower right corner.

Click on a tile to open the corresponding component.

The component will open within the Portal.

Use the Portal menu to navigate to any other component.

Click **Portal** to return to the Portal page.

When you navigate via the Portal menu, the applications are always opened **with** in the Portal except **API Developer Portal, API Management, Business Modeler and Designer** (see below).

## Identity Management

Configure Single Sign-on

Configure Single Sign-on with identity and access management.

You can also open several components in a separate browser tab by

clicking .

The component will then open in a new browser tab next to the Portal.

This option is available for the following components:

- **BPaaS**
- **Identity Management**
- **Integration (Bridge)**
- **Log Analyzer**
- **Process Mining**
- **Process Monitor**
- **User Management**
- **xUML Service Monitor**
