Configuration Options

Use the **Attributes** panel to edit the form element.

Attribute	Description	Allowed Values
-----------	-------------	----------------

Name	Technical identifier for data processing and not visible for the end user.	Alphanumeric characters and underscore. <div>  It is not allowed to start a right here name with a number. </div>
Description	A commentary field for the developer. The content is invisible to users and its sole purpose is internal documentation.	Any string.
Label	Field name shown in the form.	Any string.
Text	You can enter a text here.	Any string.
Image	If you want to display a default picture in the executed form, you can upload it here.	Supported formats: <ul style="list-style-type: none"> • *.bpm • *.gif • *.jpeg • *.jpg • *.png • *.tiff
Target URL	In this field you can enter the URL of a website that should be opened when the user clicks on the image.	Any URL.
Open in a New Tab	Applies only if you have entered a Target URL .	<div> trueWhen clicking the image, the URL specified under Target URL opens in a new browser tab. </div>

		false	When clicking the image, the URL specified under Target URL opens in the active browser tab.
Keep Aspect Ratio	Decide whether you want to keep the aspect ratio or resize the image to fit the size of the element.	true	The image is displayed in the original size.
		false	The image is adjusted to the size of the element.
Horizontal Alignment	<p>The attribute is used to adjust the position of the image within the element.</p> <p>Example: Centered alignment of an image</p> <div data-bbox="272 831 841 1100"> <div>FormImage</div>  </div>	Left	Left-aligns the image.
		Center	Positions the image in the middle of the element.
		Right	Right-aligns the image.
Vertical Alignment	<p>The attribute is used to adjust the position of a form element in context to a bigger neighboring element.</p> <p>Example: The Radio Button Group Color is much bigger than the Button Next, but the button should be shown at the bottom of the form. Therefore, the button's attribute Vertical Alignment is set to Bottom.</p> <div data-bbox="272 1268 769 1524"> <div>Color</div> <div> <input type="radio"/> Blue <input type="radio"/> Green <input type="radio"/> Red <input type="radio"/> Yellow </div> <div>Next</div> </div>	Top	Align the element on top of the element cell (default).
		Center	Align the element in the middle of the element cell.
		Bottom	Align the element at the bottom of the element cell.
CSS Class	Enables a field-accurate layout customization.		A valid CSS class.

Custom Attributes	<p>The attribute is used to activate Angular directives, that are created as development kit (devkit) library to expand the default functionality.</p> <div data-bbox="272 201 969 306">  For detailed information about Angular directives, visit the official Angular documentation. For details about the usage of the Custom Attributes, refer to Developing Custom Directives. </div>	<ul style="list-style-type: none"> • empty attribute • attribute with value (e.g. color="red") • multiple entries separated by space (e.g. color="red" multiline max="5")
Symbol Type	Displays the type of the form element in read-only mode.	—
