

# Setting up the Session Storage

## Install Redis

To install the [Redis](#), you need to execute the following steps:

1. Download the latest 3.x Redis setup file for Linux ([version 3.2.12](#)) or Windows ([version 3.0.504](#), Microsoft's official Win-64 port).
2. Setup Redis as a service on your machine  
Linux: Consult the [Redis installation instructions](#).  
Windows: Execute the MSI package.
3. Optional: Consult the [Redis Security document](#) to protect your Redis installation.
