Starting the Builder After an Update

|	
MagicDraw	After the update of the Builder has been installed, you can open MagicDraw by using the shortcut on the desktop. As an alternative, you can also open it from the Windows Start Menu (**MagicDraw UML**).

The MagicDraw window will open as usual.

Builder
+ New Builder Project   Ctrl+Shift+N
📂 Open Builder Project   Ctrl+Shift+O
🔄 Reopen Builder Project   >   🅥 D:\builder_projects\NewProject
⚙ Settings   Clear List
🗂 Open Model   >
    Views   >
↩ Refresh   F5
    Documentation   >
    Examples
ℹ About
	You can continue working on your recent projects by selecting **Build er > Reopen Builder Project**. The Builder Projects you have been working on before will be suggested.

E2E Builder File Chooser **Select a UML Document** Choose a UML document of the selected Builder project. Look in: uml mySecondUMLmodel.xml Recent Items Desktop Documents This PC Network File name: Files of type: All XMI Documents (*.xml, *.xmi, *.xml.zip, *.mdzip) OK Cancel	If the XMI file, which was saved last, exists in the selected Builder project, it will be opened after clicking **OK**. Otherwise, the dialog shown below will open, giving you the alternative to select another XMI file of this Builder project.

You can now continue working with the UML model.
