

# HTTPS

Serving the xUML UI over HTTPS is a matter of setting the protocol to https when creating the component diagram using the xUML Components Wizard.

The 'New Proxy Artifact' dialog box is shown with the following fields and values:

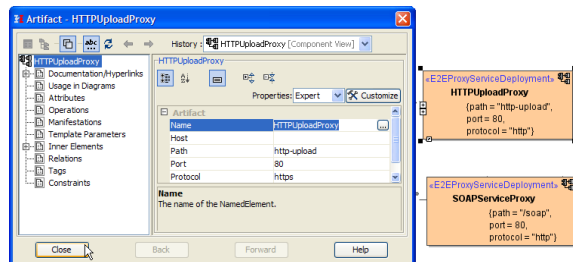

- Name:** HTTPUploadProxyArtifact
- Host:** (empty)
- Path:** http-upload
- Port:** 80
- Protocol:** https
- Documentation:** Please enter documentation here

Buttons at the bottom: OK, Cancel.

## Related Pages:
