

Setting the User Preferences

The Header Menu of the Designer

On the right side of the Designer header you can find the header menu. Use the menu to access further functionalities of the Designer.

Open the drop-down menu next to your user name to access all menu options:

Icon	Description
	User Preferences Open the user preferences to view your personal details, to change the display language and to change your password.
	Designer Options Click here to open the Designer options .
	Documentation Select this option to access the Scheer PAS online documentation where you can find user guides to all Scheer PAS components.
	Tutorials Learn more about the components of the Scheer PAS platform by following one of the comprehensive self-learning tutorials in our Scheer PAS Academy .
	Logout Click here to end your Scheer PAS session.

Changing the Display Language

You can adapt the display language of the PAS platform in the user preferences.

Click option **Language Selection**.

Choose the display language you want to use.

In the default configuration the languages English and German are supported.

It is possible to add more languages to your **ScheerPAS** configuration

ration. See Administration Guide > Customizing PAS for further information.

The two icons in the first input field support you to fill the fields correctly.

Icon	Description
	Hover over this icon to display the password criteria your password has to match.
	By default, the content of the password fields is hidden. You can display your input by tapping the eye icon, for example to prevent input errors.

If you entered invalid data, corresponding notes are displayed below the input fields when you try to save.

Designer Options

	If you open the header menu within the Designer, you can find the menu item Designer Options.		
Options Reset Panels Version pas-23.1.0.1 (2.1.0)	The Designer Options open in a sidebar on the right and show the following: <table border="1" data-bbox="982 997 1144 1971"><tr><th>Options</th><td>Use the Reset Panels button to reset all Designer panels in the editors</td></tr></table>	Options	Use the Reset Panels button to reset all Designer panels in the editors
Options	Use the Reset Panels button to reset all Designer panels in the editors
