

Administrating Users

Accessing the User Management

This chapter explains how to manage your **Scheer PAS** users within the User Management. Only users with profile **user_management_admin** are able to use the user management.

You can access the user management via the corresponding tile in the **Scheer PAS Portal**.

On this Page:

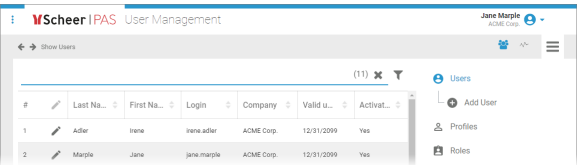

- [Accessing the User Management](#)
- [Overview on the User Management Start Page](#)
- [Features of the Navigation Bar](#)

Related Pages:

If you click on the user management tile, the application will open within the portal.

You can also open the user management in a separate browser

tab. To do so, use the icon  in the lower right corner of the tile.

In that case, an additional navigation bar is displayed in the header.

ACME Corp.

You can access two different views in the user management:

Icon	Description
	<p>User Management</p> <p>Click this icon to access the user management where you can add new users and manage current user accounts, profiles and roles.</p> <p>The functionalities of the user management are explained in this chapter.</p>
	<p>Process Mining</p> <p>Click this icon to access the Process Mining administration where you can manage the Mining settings such as uploading log files, collect logs, add calculated attributes and more.</p> <p>Go to chapter Adminstrating Process Mining for detailed information.</p>

Overview on the User Management Start Page

The user management page consists of four sections:

Vscheer | PAS
