

Creating Diagram Reports

Users can create a report of their BPMN model on the diagram pane. The necessary tool is provided in the model toolbar.

Related Pages:

- [Working with the BPMN Editor](#)
- [PAS Designer Administration](#)
 - [Configuring Templates for Model Reports](#)

Open the model for which you want to create the report.

Click the  icon in the model toolbar to start the creation of the report.

The **Select Report** pop-up opens, allowing you to customize your report.

Choose the report type first. Available options are:

- **Print model:** Send the model report to a printer.
- **Print model to Word:** The report is generated as a Word document.

If you choose the option **Print model to Word**, the button **Save as Word document** will be shown.

Select Report

Print model to Word ▾

Print model

Choose print options:

☐ Multiple pages

☒ Fit to one page

☐ Fit to multiple pages (scaled)

☒ Show header

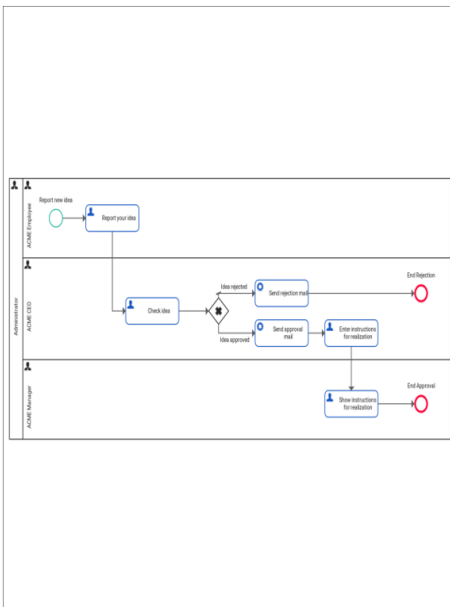

Save as Word document Cancel

Then choose your print options:

- **Multiple pages:** Distributing the model image over several pages. Keeps the original scale of the model. May have empty horizontal or vertical space on the edge pages.
- **Fit to one page:** The model image is displayed on one page (default).
- **Fit to multiple pages (scaled):** Distributing the model image over several pages. Uses entire pages without empty space. Does not keep the original scale of the model.

- **Show header** : Displays the model name as document title. The option is activated by default.

IdeaProcess

Now you are able to print the report or save it as Word document.

```
{#showHeader}{modelName}/{showHeader}
```

```
{#modelImages}
{imagePlaceholder}/{/modelImages}
```
