

# Troubleshooting User Management

Errors may occur while working in **Scheer PAS**. To facilitate troubleshooting, corresponding error and notification messages are displayed in the application. The overview of error messages allows you to identify possible causes and possible solutions. It also refers to documentation pages that contain further details.

## Overview of User Administration Errors

The following list of notification and error messages can be searched. Enter your search term in the **Global Filter** field.

Message	Possible Reasons	Troubleshooting	Further Information
<Valid to> cannot predate <valid from>!	In a user data sheet you have entered an earlier date in field <b>Valid until</b> than in field <b>Valid from</b> .	<ul style="list-style-type: none"><li>Change the date in field <b>Valid until</b> to a later date than the date in field <b>Valid from</b>.</li></ul>	<ul style="list-style-type: none"><li><a href="#">Adding a User</a></li></ul>
Access denied for page <xxx>. You will be redirected.	You are not authorized to access the page you wanted to open. This may be due to a lack of permissions, for example to further Scheer PAS components.	<ul style="list-style-type: none"><li>Contact an administrator.</li><li>Contact the PAS support.</li></ul>	<ul style="list-style-type: none"><li><a href="#">Support</a></li></ul>
At least one profile must be assigned to a user!	You want to save a user data sheet but you did not assign any profile to the user.	<ul style="list-style-type: none"><li>Assign at least one profile to the user. Otherwise saving your data is not possible.</li></ul>	<ul style="list-style-type: none"><li><a href="#">Adding a User</a></li></ul>
Connection interrupted!	Problems with the connection to your <b>Scheer PAS</b> system occurred. This may be due to connectivity issues or maintenance.	<ul style="list-style-type: none"><li>Try to reload.</li><li>Check the internet connectivity.</li><li>Contact a system administrator.</li></ul>	
Error while changing password	You changed your password but the changes are not saved. This may be due to wrong input or internet connection problems.	<ul style="list-style-type: none"><li>Check if your input in field Current Password.</li><li>Check if the new password fulfills the password criteria.</li><li>Check the internet connectivity.</li></ul>	<ul style="list-style-type: none"><li><a href="#">Logging In and Out</a></li><li><a href="#">Editing a User</a></li></ul>
Error while checking the ID	The system could not correctly determine whether the ID is already in use.	<ul style="list-style-type: none"><li>Try to save your data again.</li></ul>	<ul style="list-style-type: none"><li><a href="#">Adding a User</a></li><li><a href="#">Editing a User</a></li></ul>
Error while checking the name	The system could not correctly determine whether the name is already in use.	<ul style="list-style-type: none"><li>Try to save your data again.</li></ul>	<ul style="list-style-type: none"><li><a href="#">Adding a User</a></li><li><a href="#">Editing a User</a></li></ul>
Error while checking the namespace	The system could not correctly determine whether the namespace is already in use.	<ul style="list-style-type: none"><li>Try to save your data again.</li></ul>	<ul style="list-style-type: none"><li><a href="#">Adding a Profile</a></li><li><a href="#">Editing a Profile</a></li></ul>
