PAS-5587	Export not working / 414 Request URI to Large	Exporting and Importing Explorer Contents
PAS-5067	Cannot create new "foreach" parameters	Array Mapping

Designer 5.3.2-hotfix.3

Bug	Description
PAS-5682	Adding new operation parameters will produce invalid pins in activities
PAS-5631	Rest stereotype parameters are missing after usage of rest operation
PAS-5550	Relation is missing

analytics-api-service_4.1.0

Bug	Description
PAS-5614	Error in finding host name from collector config
PAS-3802	pas-demo Error in ETL Service 'Incorrect integer value'

analytics-etl-service_2.1.2

Bug	Description
PAS-5614	Error in finding host name from collector config
PAS-5384	Duplicate key constraint error when working queue
PAS-5267	Analytics - Procedure "SetETLState" fails
PAS-3802	pas-demo Error in ETL Service 'Incorrect integer value'

deployment-wizard 4.0.4

Bug	Description	Documentation Link
PAS-5261	Deployment wizard should rename image and containername on upload	Working With the Deployment Wizard
PAS-5151	Use new User Service in xuml management ui, service manager, deployment-wizard	
PAS-4986	Deployment wizard partially sends hardcoded image values	Working With the Deployment Wizard
Improvement	Description	Documentation Link
PAS-4793	Deployment Wizard must return deployment response	Working With the Deployment Wizard
PAS-4731	Adjust wording and Deployment Options for Kubernetes	
PAS-4730	Disable file upload chooser in deployment wizard	Working With the Deployment Wizard

file-storage 5.0.0

Bug	Description
PAS-5536	NestJS file storage tries to read data from wrong source
Improvement	Description
PAS-1425	Migrate File-Storage (and maybe File-Service) and Analytics-ETL/Collector to use MinIO

keycloak 22.2

New Feature	Description
PAS-4919	Add role permissions for PAS Designer users
Improvement	Description
PAS-4368	Add system link to email notifications

messaging-service 4.0.0

Bug	Description
-----	-------------

PAS-4707	messaging-service resends already sent messages without stopping
----------	--

nginx 1.23.2.0

Improvement	Description
PAS-2246	Harden security settings on default nginx config

one-docker 22.2

Improvement	Description
PAS-4637	Add script to create a minio bucket during elasticsearch backup (if not present)

portal-app 2.2.0

Bug	Description	Documentation Link
PAS-5035	Error 401 when accessing the portal	Getting Started With Scheer PAS
PAS-4741	Portal is bugging when Auth Service sends code 417	Getting Started With Scheer PAS
Improvement	Description	Documentation Link
PAS-5002	use PAS Realm Keycloak Tile and Account Tile in Portal	Working with the Identity Management
PAS-4998	Adjust Portal to consume new User Service Nest routes	Getting Started With Scheer PAS
PAS-4108	Enable linter and prettier in portal-app and submodules	

service-manager-module 5.4.9

Bug	Description	Documentation Link
PAS-5375	Administration tries to fetch auth-service data but its pending infinite	
PAS-5374	Enable viewing logs for authenticator-service	
PAS-5342	Service Manager must keep state of panels	
PAS-5151	Use new User Service in xuml management ui, service manager, deployment-wizard	
PAS-5129	Reloading Swagger UI does not work	
PAS-5028	Fix Service Manager Module pipeline for publish job	
PAS-5023	Wording Administration tile: Avoid "docker container"	Overview on Administration Profiles
PAS-4634	logging-service getURL-call returns wrong query for nestJs services	
PAS-4602	Resetting the log level for nestjs services does not show expected state	
PAS-4600	Wrong text and options for new nestjs logging panel	
New Feature	Description	Documentation Link
PAS-4732	Runtime endpoints must be fetched dynamically	

Improvement	Description	Documentation Link
PAS-4586	Relocate OpenAPI default location	
PAS-4453	Refactor Administration: Data structure of services and (soon) workloads	
PAS-2877	New permission scheme for administration	Overview on Administration Profiles
PAS-2426	Portal should be capable of managing Workloads in Kubernetes	

service-repository 6.2.0

Bug	Description
PAS-5439	Public path for registered endpoint is wrong
PAS-5286	Service-repo nestjs does not register itself to mongo
PAS-3255	Different versions of an containerized unique xUML service may lead to unexpected behavior
New Feature	Description
PAS-2427	Build and deploy container with kubernetes API
Improvement	Description
PAS-4592	Relocate OpenAPI descriptor
PAS-3252	Use xUML service routes for changing container properties / setting
PAS-2876	CRUD operations on containers created by user

user-service 7.0.0

New Feature	Description
PAS-4919	Add role permissions for PAS Designer users

xUML Runtime 2022.8

Bug	Description
PAS-4620	ZIP-Adapter cannot deal with UNC pathes
PAS-4551	URL Adapter: one-time memory leak for each FTP-like call with POST as a method

xUML Runtime 2022.9

Compatibility Hint

This Runtime fixes a potential misbehavior of URL Adapter and an easy-to-trigger data loss if using it with FTP-like protocols, introduced in version 2022.8.

Bug	Description
PAS-4777	XML Parser does not follow redirects when downloading schemes
PAS-4773	URL Adapter treats all requests as uploads

xUML Runtime 2022.10

New Feature	Description	Documentation Link
PAS-4872	Access to current index in iteration blocks	Iterations
Bug	Description	Documentation Link
PAS-4779	HTTP Service: memory leak when logging incoming request (log level DEBUG)	

xUML Runtime 2022.11

Bug	Description
PAS-5316	Zip adapter crashes service if baseDir is NULL on unzip
PAS-5255	ZIP adapter adds a point when baseDirectory is not set
PAS-5036	Service does not start: Segmentation fault (re-writing external PS)

xUML Runtime 2022.12

Bug	Description
PAS-5667	Crash if SAP connection string has wrong format
PAS-5639	Crash parsing complicated SAP connection string
PAS-5532	Convert + in REST query parameters to blank

xuml-management-ui 1.1.5

Bug	Description	Documentation Link
PAS-5329	Multiple table column "name" in xuml-management-settings-ui	
PAS-5235	Swagger ui css is broken	
PAS-5220	Missing copy to clipboard function for private API endpoint	Controlling Containerized xUML Services
PAS-5151	Use new User Service in xuml management ui, service manager, deployment-wizard	
New Feature	Description	Documentation Link
PAS-4732	Runtime endpoints must be fetched dynamically
