

Messages Tab

Messages Tab Overview

Click on the **Messages tab** icon in the top right corner of the window to open the Messages panel.

Here you can view all the messages you have sent or received. You can also send new messages as well as delete or archive existing ones.

You can send messages to a **group / role or to users** who have permissions on your profile / database.

✓ Messages can be sent about a model or object.
For more details visit page [Messaging](#).

Filter and Sort

The screenshot shows the vSphere Client interface with the Messages tab selected. The interface includes a search bar, a filter dropdown, and a list of messages. The messages are related to a 'test model me...' and a 'test, messaging object-related.' message. The interface also shows a 'New message' button and a 'Messages' tab.

Status	Subject	Object	Subject	Message	Time
Info	marko.povopic: 2	123	not related.	test	Apr 05
Info	marko.povopic	You don't have...	not related.	car servicing	Apr 05
Info	marko.povopic	You don't have...	not related.	test model me...	Apr 05
Info	marko.povopic	You don't have...	You don't have...	test	Apr 05
Info	marko.povopic	You don't have...	not related.	message to a g...	Apr 05
Info	marko.povopic	You don't have...	You don't have...	test, messaging	Apr 05
Info	marko.povopic	You don't have...	You don't have...	test, messaging object-related.	Apr 05

You can filter your messages by **subject**, **content** or **model name**

You can also sort any column in **Inbox**, **Sent** or **Archive** tab.
