

# compact

Runtime 2020.13

|                       |  |
|-----------------------|--|
| <b>Syntax</b>         | <code>anArray.compact()</code>   |
| <b>Semantics</b>      | Removes NULL elements of the array <code>anArray</code> . This is a convenience operation that can be used instead of <code>select from anArray where element.exists();</code> . |
| <b>Substitutables</b> | <code>anArray</code> Can be any variable or object attribute having the type <b>Array</b> .  |
| <b>Examples</b>       | <pre>set compactArray = anArray.compact();</pre>   |
