

Adding Assets

The **Asset Drawer** allows you to add different types of assets to your service.

Currently, only libraries can be uploaded to the asset repository. This will be extended to more assets in future versions.

The Asset Drawer lists all available assets. It displays assets...

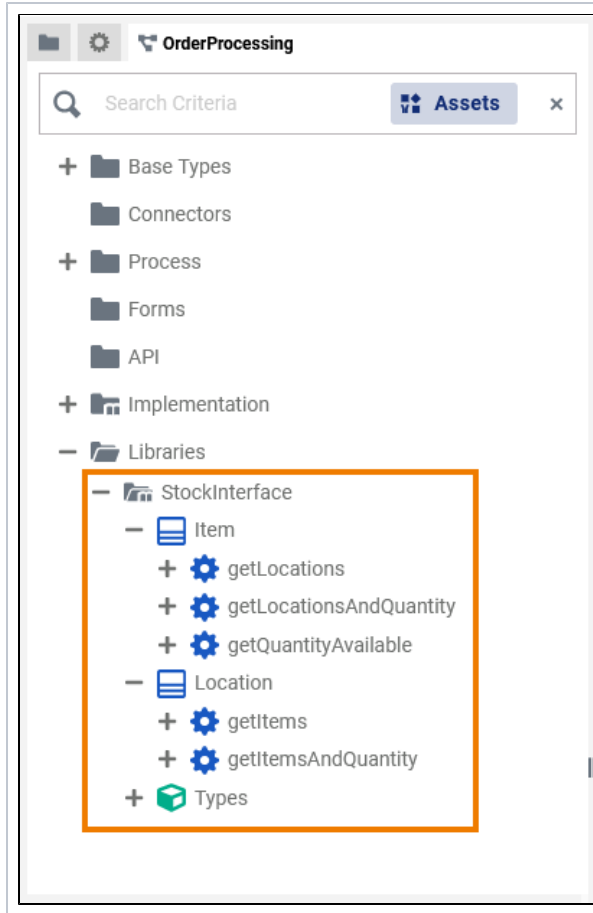

- ... that have been uploaded to the current namespace.
- ... that have been uploaded to namespace **Shared**.

Browse the list to find the asset you want to use in your service.

To add an asset to your service click the corresponding

Add ▾

button.

The added asset is now displayed in the service panel and you can use it during modeling.
