Customizing the Developer Portal

The **Scheer PAS** *API Developer Portal* is installed with a Scheer default layout, but it was designed to be customizable. The following contents can be adapted:

1. Favicon
2. Header Image
3. Text (content and font settings)
4. Colors (e.g. buttons, icons...)
5. Additional Menu Entries
6. Footer

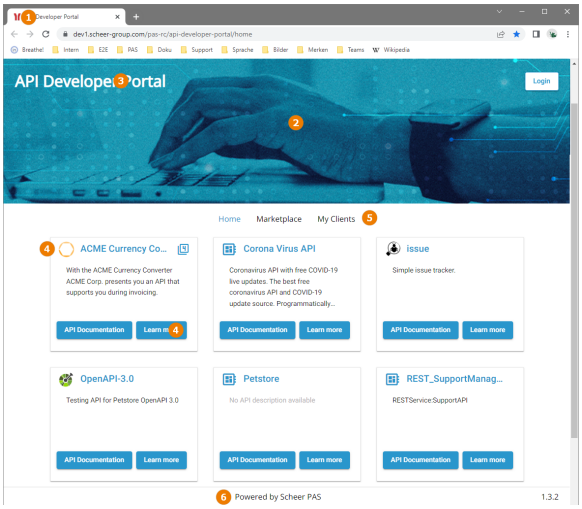
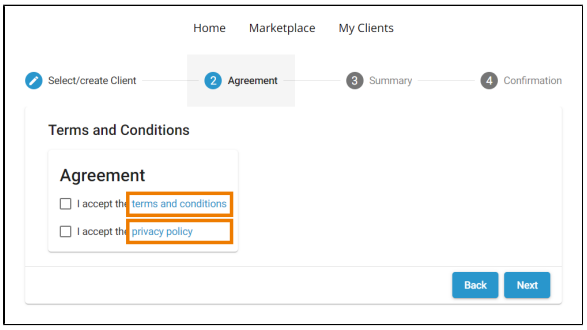
- Notifications





Addionally, it is possible to enable the additional step **Terms and Conditions** in the sign up wizard. In this step, you can link to your terms and conditions and enforce users to accept them before they can register for your APIs.

If you want to adapt one or more of the listed settings, please feel free to contact our **ScheerPAS** support team.
