

Uninstalling the Analyzer

The **Scheer PAS Analyzer** needs to be removed manually. To uninstall, do the following:

1. In your filesystem, remove the folder you installed the Analyzer to.

The default folder of an installation on Windows is `C:\Program Files\E2E Analyzer`.

2. Use the Windows Registry Editor to remove all registry entries concerning the Analyzer. These are:

- `HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\Uninstall\E2E Analyzer`
- `HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\Uninstall\Scheer PAS ANALYZER`
- `HKEY_LOCAL_MACHINE\SOFTWARE\WOW6432Node\Microsoft\Windows\CurrentVersion\Uninstall\E2E Analyzer`

Depending on which version of ANALYZER you have installed, not all registry entries may be present.

3. Go to your Windows user folder (on Linux to your home folder), and into folder `.e2ebuilder`. Delete all system configuration files containing `analyzer` in any form:

- `.e2e.analyzer.info`
- `analyzer.layout`
- `e2e.analyzer.install.report`
- `e2eanalyzer.e2ebuilder.properties`
- `e2eanalyzer.regressiontest.properties`
- `e2ebuilder.analyzer.log`
