

API Management Logging

If you have technical problems with API Management and need to do some deeper research, you can have a look at the logs.

Inspecting API Management Logs

With the [Log Analyzer](#), **Scheer PAS** contains an application that allows you to view, filter and search the platform logs for all services.

Service

The easiest way to access the API Management logs is, to open the **Scheer PAS Administration**.

In the Administration, you can filter for

- api-management-gateway
- api-management-ui

To open the corresponding logs, click icon .

The logs are opened within the Log Analyzer.

You can also open the Log Analyzer directly in the **Scheer PAS Portal**.

 Log Analyzer

Log Analyzer

Analyze all Technical Service Logs

Self service tool for creating dashboards, analyzing logs of existing services and API Management metrics.
