Organization Settings

To view all organizations your user is allowed to see, go to tab **My Organizations** in the navigation bar:

If you want to revise the settings of an organization, you need to open its details page.

Click on the tile of the organization you want to edit.

> ✓ For detailed information about navigating and filtering the list refer to [Working With the API Management](#).

The details page opens and displays the **Overview** tab.

Basic Settings

The **Overview** tab displays the most important information about an organization and also offers various functionalities:

UI Element	Name	Description
Basic Settings (available in all tabs)		
1	**Name / Description**	**Name:** The name of the organization is displayed in read-only mode. **Description:** The description of the organization is changeable. Click in the field and start writing if you want to alter the displayed text. Your changes are saved automatically.
2	**Delete**	Click **Delete** to remove the organization. You will need to confirm the deletion in a separate pop-up window.
3	**Navigation Bar**	Use the navigation bar to access the various tabs of the organization's details page (details of all tabs see below).
Overview Tab Settings (available only in tab Overview)		
4	**Organization Contents**	At a glance, the user can see in this section which and how many elements are currently managed in this organization. The displayed entries are interactive: Click on an entry to switch to the corresponding tab.
5	**Members**	In this section you can see at a glance what members this organization has and what roles they have been given.

Organization Details

In the navigation bar of the details page, you will find several tabs where you can manage the various settings of the organization.
