

Unsubscribing from an API

Private APIs are only accessible for known consumers, called clients. Each client can consume multiple APIs within API Management. The relation between client and API is defined via a contract and a plan.

Deleting a Contract

If you want to unsubscribe from an API you are currently consuming with one of your clients, got to tab **My Clients** in the API Developer Portal.

All contracts are displayed within the client tile as well as in the right sidebar.

 **Expert Advice**

Use the sidebar for easy navigation within the **My Clients** tab.

Click **Delete** to remove a single contract.

Caution!

If only one contract is managed within the client, clicking **Delete** will remove the whole client.

<div><div>Delete Contract</div><div>Are you sure you want to delete the contract between DextersClient and ACME Currency Converter?</div><div><div>Cancel</div><div>Delete Contract</div></div></div>	For security reasons, you need to confirm the deletion.
