# Step 5: App Execution

Your app is ready to be executed.

Go back to the cockpit and open the sidebar **New Elements**. In addition to the start link of project ACME Directories two new start links are now displayed:

- Customer Database - Create
- Customer Database - Overview

To start the process app, you can directly use these links in the sidebar - or you create corresponding tiles on your cockpit.

Drag a start link from the sidebar and drop it in the group on the cockpit to create a tile.

If you click on the tile or the link, the corresponding form will open and you can enter data.

Use the **Create** tile or link to open your first input form.

By de

fault, the template **CSSBlue** is assigned to the reference and the overview model of a newly created app project.

|	
	Required fields will be checked. If they are not filled, a corresponding message will be displayed.
	Click **Next** to switch to the next process step - and to your second input form.
	Your input from the first form has been transferred to the second form. You can now fill the additional fields you designed in your second form. Confirm your input with **Next**.

Customer Data Sheet Summary	
Company	Sample Corp.
First Name	Sally
Last Name	Sample
Position	CTO
Notes	
Street	Sample Street
no	123
Address Addition	
ZIP Code	94016
City	San Francisco, CA
Country	USA
Phone	+1 305 340 123
Mobile	+1 305 340 1222
Email	sally@sample.com
Internet Address	

URL	Name	Open in New Tab
http://www.sample.com	Sample Corp	Active

Go to overview	Save	Next

You have reached the last process step.

Your input is now shown in the summary as you defined it.

ACME Address Management

ACME Directories

Customer Database - Create

Customer Database - Overview **1**

After saving, switch back to the cockpit. Create a new tile using the start link **Overview**.

Since you have already created an instance, a counter showing the number of available instances is added to the overview tile.

Instances table

Company Name	First Name	Last Name	Position	Phone	Mobile
Sample Corp.	Sally	Sample	CTO	+1 305 340 123	+1 305 340 1222

Page 1 of 1   20   View 1 - 1 of 1

Open the overview by clicking on the tile.

The instance table displays the instance that you have just created.

Click on the displayed instance.

Customer Data Sheet Summary » The process is finished for this instance. The data of the last process step is displayed. Changes are not possible. **Company** Sample Corp. **First Name** Sally **Last Name** Sample **Position** CTO	The input form with the corresponding data opens. It is possible to edit the existing instance until it has not reached the last proces step. If the instance reached the last process step, the data is displayed in read-only mode and a corresponding message is displayed.

Search area Company	Last Name	New Instances table | Company Name	First Name	Last Name	Position	Phone	Mobile
Sample Corp.	Sally	Sample	CTO	+1 305 340 123	+1 305 340 1222		Open the overview again. You can create a new instance directly from the overview: Click on the button **New** to open the empty input form. Create some new instances and open the overview again.

Search area Company	Last Name	New Instances table | Company Name	First Name	Last Name	Position	Phone	Mobile
Sample Corp.	Sally	Sample	CTO	+1 305 340 123	+1 305 340 1222
Example Inc.	Ed	Example	CEO	+1 305 345 038 111	+1 305 345 038 222
Model Company	Molly	Model	Head of IT	+1 907 146 84 999	+1 907 146 84 888
Spring Corp.	Rose	Bloom	CIO	+1 415 777 10 812	+1 415 777 12 889
Autumn & Co.	Liv	Falls	Administrator	+1 416 928 26 132	+1 416 928 77 596		After opening the overview, all existing instances are displayed.

Autumn & Co.	Liv	Falls	Administrator	+1 416 928 26 132	+1 416 928 77 596

Now you can use your filters Company and Last Name to search for individual instances.

Congratulations - you have done it!
You have created your own executable Process App.

Enter your search term in one of the input fields and confirm with **Enter**: The contents of the instance table are searched and the result is displayed.
