Improvement	Description
RFS-94	SAPNWRFC: Support Node.js 8 LTS Carbon (8.9.1)
RFS-95	SAPNWRFC: Drop support for Node.js 4 and 6

Release Notes of SAP RESTifier Version 2

As of RESTifier for SAP version 2, you need Node.js version 4.4 LTS. This Node.js version is included in Bridges as of 6.0.56.1.

RESTifier for SAP 2.4.2 (18.06.2018)

Bug	Description
RFS-101	API: BasicAuth: User password is only used on first access

RESTifier for SAP 2.4.1 (07.06.2018)

Bug	Description
RFS-100	API: Switching authentication type without restart may not be considered leading to inconsistent behavior or crash.

RESTifier for SAP 2.4.0 (01.06.2018)

Improvement	Description
RFS-98	API: Connection pooling for basic auth user connections

RESTifier for SAP 2.3.0 (20.09.2017)

New Feature	Description
RFS-93	API: SAP credentials via parameter (basic authentication)
Improvement	Description
RFS-90	API: Missing blanks at the beginning or end of a char field

RESTifier for SAP 2.2.1 (10.07.2017)

Bug	Description
RFS-92	SAPNWRFC: RESTifier stops unexpectedly

RESTifier for SAP 2.2.0 (04.04.2017)

Bug	Description
RFS-79	UI: Configuration dialog should always retrieve current data
Improvement	Description
RFS-86	SAPNWRFC: Support Node.js 6.x
RFS-87	SAPNWRFC: SAP RFC library 7.20.42

RESTifier for SAP 2.1.0 (18.11.2016)

Bug	Description
RFS-84	SAPNWRFC: Finish function call in case of an exception
Improvement	Description
RFS-83	UI: New E2E Logo
RFS-85	SAPNWRFC: Add SAP connection instance to verbose log entries

RESTifier for SAP 2.0.1 (19.09.2016)

Bug	Description
RFS-82	SAPNWRFC: RESTifier crash (RfcInvalidHandleException)
Improvement	Description
RFS-81	SAPNWRFC: Update SAP library to 7.20 patchlevel 40

RESTifier for SAP 2.0.0 (29.06.2016)

Bug	Description
RFS-68	SAPNWRFC: Crash upon closing SAP connection
RFS-78	UI: Performance configuration dialog does not close
Improvement	Description
RFS-53	API: Refresh SAP RFC signature and description
RFS-55	API: Log only path of URL into transaction log
RFS-56	API: Authentication and authorization with One Platform
RFS-61	SAPNWRFC: Support Node.js 4.4 LTS release
RFS-63	SAPNWRFC: Upgrade SAP NWRFCSDK to 7.20.38

Release Notes of SAP RESTifier Version 1

SAP RESTifier Version 1 runs with Node.js 0.10.x.

RESTifier for SAP 1.1.0 (11.08.2015)

Bug	Description
RFS-57	API: Return exception details (see REST API of the E2E RESTifier for SAP)
	API: Unify error responses

RESTifier for SAP 1.0.0 (11.05.2015)

Bug	Description
RFS-51	UI: Restore favicon
RFS-52	API: Startup fails if CONFIG_DIR is defined
RFS-50	Rebuild cache always redirects to domain omitting path
	Corrected images on license page
	Made windows standalone package working correctly again
RFS-43	Add jasmine-node to devDependencies
RFS-49	Cannot save whitelist
RFS-36	Corrected handling DECIMAL type
	Corrected rotated restifer logfile name pattern to be picked by Bridge
Improvement	Description
RFS-20	Support for HATEOAS.
	Renamed endpoints to be more REST
RES-21	protect api using e2e-auth
RFS-22	introduce BAPI whitelisting
RFS-41	Use e2e-conf
RFS-46	Possibility to disable user control.
RFS-24	Use Gulp to build and minify web assets and create RESTifier deployment package
