

The Sidebar

Process mining enables the creation of individual evaluations based on your key process data. You decide yourself how you want the analyses to be shown: Choose the most suitable chart type for your analysis from a range of different options. You can also use the sidebar to analyse the differing variants that your process goes through and to create templates for analyses that are required on a frequent basis.

Your **Scheer PAS Process Mining** functionality is managed via the **sidebar**.

The sidebar consists of three areas:

This screenshot shows the "Analyses Sidebar" area. At the top, there are three icons: a bar chart, a star, and a document. Below them is a red button labeled "New Analysis". Further down are three small icons: a square, a double vertical bar, and a triple vertical bar.

- [The Analyses Sidebar](#)

This screenshot shows the "Variants Sidebar" area. At the top, there are three icons: a bar chart, a star, and a document. Below them is a button labeled "Select a process.". Further down are three small icons: a play button, a double vertical bar, and a triple vertical bar.

- [The Variants Sidebar](#)

This screenshot shows the "Templates Sidebar" area. At the top, there are three icons: a bar chart, a star, and a document. Below them is a blue button labeled "CREATE NEW TEMPLATE".
