

Adapting Integration Service Configuration

Name	Type	Quick Actions
 ActivityTestService	xUML	    
 Appointment_Willy	xUML	    

The administration application allows you to change the configuration of an integration service.

You have two options to open the configuration of an integration service:

- Use icon  in the quick actions bar in the services' list.

Details of ActivityTestService

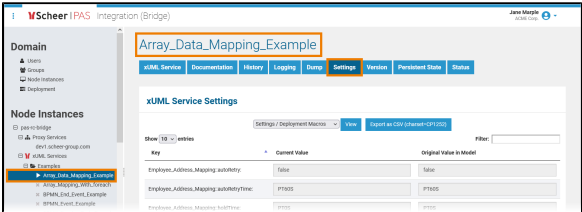

← **running** ▶  

Information

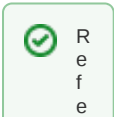

Logs

Configuration 

- Open the details page of a service and scroll down to section **Configuration**.

If you click on the icon  in the services' list, the service opens directly in the integration component (Bridge) of the platform and tab **Settings** is displayed.

Configuration ^ Open Bridge and show configuration	You can also open the details page of an integration service and scroll down to section Configuration to get access to the Bridge. Click the link Open Bridge and show configuration to open tab Settings of the service in the integration component (Bridge).
Configuration ^ No configuration is available for this type of service	The Configuration section also informs you if the configuration UI is not available for a service type.
