Assignments Panel Overview

The **Assignments Panel** shows the model which is currently linked to the selected object.

On the bottom of the same panel, there are two options for linking a model. You can choose to **link to a new model** or an **existing one**.

If you click on **Link new model** link, a popup for the creation of a new model opens.

☒ Open model after creation

☒ Create object occurrence

Save

Cancel

Enter a **name** for your model and choose a **model type**. The model name is by default set to match the name of the object to which it is linked to.

There are two **additional options** at the bottom of the pop-up window:

1. **Open model after creation** - Check if you want to open your model after you have finished creating a new model. Click **Save** button and you will be redirected to a newly created model.
2. **Create object occurrence** - Check if you want to create the occurrence of the object with which the model is linked in the newly created model.

Click **Save** to create the model in the selected folder.

If you click on **Link existing model** link, a popup window showing all models appears.

⌵ ATTRIBUTES × ASSIGNMENTS × OCCURRENCES ×

🔗 Test model 2

+ Link new model

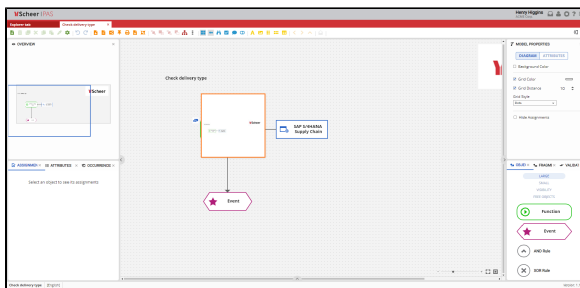

+ Link existing model

Select the model with which you want to link the currently selected object.

✓ In addition to linking the object, you can link the current model with a new or existing model. For

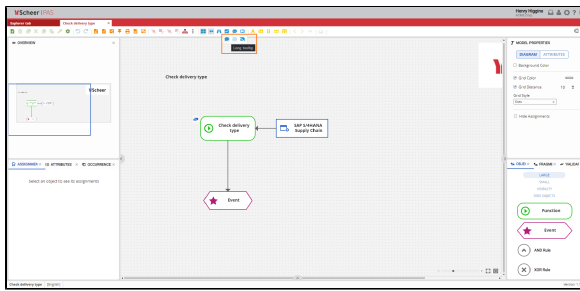

more details visit the Navigation Symbol section within the Objects page.

Assigned model preview

If the object has an assignment, there will be an **Assignments** icon next to it.

 Note that this icon is visible only if the **Hidden Assignments** checkbox inside the Model Properties Panel is left unchecked.

When you move the mouse over the Assignment icon, a preview of the linked model will appear.

Model preview will only be displayed if the **Long tooltip** option in the **Tool bar** is enabled.
