Example

The Camera element [Picture of Damage/Defects](#) is used in ACME's [Procurement app](#). During the inspection of a delivery, users are given the opportunity to take a picture of an ordered item which has been delivered with defects or damages:

Number of Ordered Items

☒ Complete
☐ Incomplete

Condition of Ordered Items

☒ Intact
☐ Damaged

Upload Delivery Notice

Details of Damage or Defects

In case of defects please describe in more detail.

Picture of Damage/Defects

Full functionality of this element is currently only supported by Chrome.

Configuration Possibilities

The form element may be edited via the **Edit Sidebar**.

<div>Name</div> <div>Camera</div> <div></div>	<div>Name</div> <div>Field name shown in the form.</div>
<div>ID</div> <div>rp02727f33-b7cf-40ef-886e-b4da441295ff</div>	<div>ID ()</div> <div>The read-only field contains the model ID of the element. Designers can use the ID for example in the search to link the element in other models.</div>
<div>Description</div> <div></div>	<div>Description</div> <div>When a user hovers over a form element during execution, the content commentary field is shown as a quick info:</div> <div><div>Text Field</div><div><div></div><div>Description of the field is displayed as quick info</div></div></div>

<div>Hashtags</div> <div></div>	<div>Hashtags</div> <div>Possibility to insert your own key terms . The leading hashtag sign # (h) will be inserted automatically.</div> <div>Use the space bar to separate multiple hashtags:</div> <div>Hashtags #Procurement #ACME</div> <div>One hashtag may be issued for multiple elements:</div> <div><div>Irene Adler ACME Corp.</div><div>#Procure</div><div>Drop-down Field: #Procurement Department</div><div>Input Field: #Procurement Name</div><div>Responsive Form: #Procurement #ACME Procurement Request</div><div>EPC Model: #Procurement ACME Procurement</div></div>
