

API Management Migration Notes 7.4.0 -> 7.5.0

If starting with a clean installation, there is nothing to do. If updating an installation of API Management, follow the steps listed on [Updating API Management](#) and pay attention to the following changes:

- API Management 7.5.0 features a new policy **Caching Resources Policy**. To use this policy, you have to import the following configuration file:
 - [caching-resources-policy.json](#)

Import this file as described on [API Management Backup and Restore](#).
